

MITIGATED DETERMINATION OF NON-SIGNIFICANCE

Description of proposal: The proposal consists of harvesting standing timber and down cedar logs and stumps over 71-acres. The area will be replanted with conifer seedlings after harvest. There will also be 369 feet of forest road construction associated with this proposal. This review covers the Forest Practices Application (FPA) activities as described in FPA #2920741.

Description of mitigation:

1. Riparian management zones and leave areas where no harvest will occur have been expanded in areas to protect unstable slopes and associated streams.

Location of proposal, including street address, if any: The site is located in portions of Sections 4 and 9 Township 11 North, Range 4 West, W.M., Lewis County. The proposal is approximately 9 air miles northwest of Ryederswood, Washington.

Lead agency: Department of Natural Resources

The lead agency for this proposal has determined that it does not have a probable significant adverse impact on the environment. An environmental impact statement (EIS) is not required under RCW 43.21C.030(2)(c). This decision was made after review of a completed environmental checklist and other information on file with the lead agency. This information is available to the public on request.

[] There is no comment period for this Mitigated DNS.

[X] This Mitigated DNS is issued under WAC 197-11-340(2); the lead agency will not act on this proposal for 14 days from April 15, 2010. Comments must be submitted by April 29, 2010.
